ECA Award 2018

In 2009, the European Carbon Association (ECA) has created a new award to recognise a significant contribution to the European carbon science community carried-out by a scientist from anywhere in the world, or a remarkable service to the worldwide carbon community carried-out by a scientist from Europe. The ECA Award will be presented at each World Conference on Carbon organized by one of the national carbon groups of the ECA, that is to say, every three years.

The award will be made on the recommendation of the ECA Award Committee and seeks to honour "Remarkable service to carbon science community" with the recipient holding the respect of their colleagues and "having been influential and supportive towards others in the pursuit of scientific excellence or having made a significant contribution in providing a strong foundation to the community of carbon scientists and technologists in order to promote a flourishing and healthy environment for scientific achievement".

The ECA award includes a prize of 1200 Euros.

Nominations are now sought for the award. The nomination should be made without the knowledge of the potential recipient and include a citation of 200 to 250 words.

Nominations should be sent to the current Chair of ECA, Dr. Maria Jesús Lázaro
mlazaro@icb.csic.es

The closing date for nominations for the ECA Award will be **30 March, 2018**.
